Elżbieta Bieńkowska
Commissioner for Internal Market, Industry, Entrepreneurship and SMEs
European Commission

November 7, 2016

Dear Commissioner Bieńkowska,

It was my pleasure and honor to meet you at the Tatra Summit in Bratislava. I appreciated the opportunity to speak with you in person, and I look forward to our future cooperation.

We fully share your views on the importance of digital skills, which are a key condition for European economic growth. We will continue driving our campaign to improve digital skills of European citizens. We also appreciate the support that you and the European Commission provide to the *Growth Engine* initiative, and your other activities in this area. Together with my colleagues we are dedicated to working with you and your Cabinet in order to maximize the impact of our joint efforts.

During our discussion we touched upon Campus Warsaw. As we mentioned in our meeting, we will be honored if you could find a time in your schedule to visit the site in spring of 2017. My colleagues will follow up with your team to find a date and discuss an agenda.

I also welcome your open and positive approach towards the Digital Single Market. We will continue to support your efforts to promote the European economic growth, based on innovations and digital technologies, and we will also continue working with European small and medium enterprises and help them utilizing available digital tools.

We will be happy to provide support and feedback to your initiatives promoting European startups and helping them to scale on the global market. The same applies to your activities in the area of data-driven innovation.

Should you have any further questions regarding Google, please do not hesitate to contact us. My colleagues are in touch with your Cabinet and will be following-up on particular projects.

I look forward to meeting you again.

Sincerely,

[redacted]

[redacted] Really enjoyed our conversation & hope you are able to visit Campus Warsaw soon!
