Dear Mr Rossides,

On 26 October I sent a meeting request for Amazon Web Services' Vice President of Public Policy, Michael Punke, to meet with Commissioner Avramopoulos to discuss the European digital economy, the Regulation on terrorist content online and law enforcement access to data. Last week I was told that the request would be discussed with the Commissioner and the cabinet this week. I was wondering if you could give me any updates or a response?

Please feel free to reach me by phone if you have any further questions, on +32 484 77 24 82. Many thanks!
