Subject: Request for a meeting with Amazon – 20th April

Dear Commissioner Malmstrom,

I'm taking the liberty of writing to you to request a meeting with Art.4.1(b)
Art.4.1(b) will be in Brussels on 20th April.

Over the last two decades Amazon has become a major investor and employer in Europe, with 50,000 permanent employees and €15 billion invested since 2010. Amazon is committed to offering customers' products and services at a great price, with quick, efficient delivery; enabling third party businesses to sell throughout the EU via our Marketplaces; and facilitating innovation through our cloud computing services.

We would like to discuss how Amazon could help support the Commission's trade agenda with a view to strengthen the Digital Single Market, and exchange thoughts about the EU/U.S. transatlantic relations, in the context of the digital sector, data flows and data protection.

Thanking you in anticipation.

Yours sincerely,
