19.2.2019

COLUMN TABLE FOR INTERINSTITUTIONAL NEGOTIATIONS

Proposal for a regulation of the European Parliament and of the Council
establishing the Connecting Europe Facility and repealing Regulations (EU)
No 1316/2013 and (EU) No 283/2014
(COM(2018)0438 – C8-0255/2018 – 2018/0228(COD))

Date of the trilogue: 19.2.2019

Committee on Industry, Research and Energy
Committee on Transport and Tourism – Negotiating team

**Interinstitutional File:
2018/0228 (COD)**

Trilogue Meeting Document **(Articles & Recitals)**

Subject: Proposal for a Regulation of the European Parliament and of the Council establishing the **Connecting Europe Facility** and repealing Regulations (EU) No 1316/2013 and (EU) No 283/2014
- **Second informal trilogue, 19 February 2019, Brussels**

FOURTH COLUMN *explanations*

The fourth column contains Presidency compromise suggestions covering the text of the entire Regulation (Recitals always being subject to adjustments in line with the respective Articles).

In that column, ***bold italics*** text indicates text as it was proposed by the EP.

Bold text indicates parts of the **Council Provisional General Approach (CGA)** text or new compromise text proposed by the Presidency in response to EP amendments and discussions with delegations.

Underlined bold text (normal or *italics*) indicates new text proposals and [...] where text parts have been deleted, compared to the previously discussed document.

Elements put into [**square brackets**] indicates parts which will be subject to MFF negotiations and thus are excluded from the current trilogue negotiations on this Regulation.

"COM" indicates that Council and EP have not proposed any changes to the Commission proposal and

"EP=CONS" indicates where EP amendments and the Council General Approach are identical.

Where the fourth column is marked "*Propose CGA*", the Presidency proposes the text of the Council Provisional General Approach ("*EP AM not acceptable*" in cases where there is no corresponding text in the Commission proposal or the CGA).

"*Proposed compromise*" indicates where the Presidency proposes either entirely new text or where the text of the CGA or the EP amendment are adjusted.

The text has also been **colour-coded** as follows. **Green** boxes mark those issues where the position of the Council and of the European Parliament are the same or where a provisional common understanding was reached at technical level, **orange** boxes for open technical issues and red for political ones.

2018/0228 (COD)

**Proposal for a Regulation of the European Parliament and of the Council
establishing the Connecting Europe Facility and repealing Regulations (EU) No 1316/2013 and (EU) No 283/2014**

25.		AM 7		
26.		<p><i>(7a) Actions contributing to the development of projects of common interest in the transport sector, financed by the Programme, should build on the complementarity of all transport modes to provide for efficient, interconnected and multimodal networks, in order to ensure connectivity throughout the Union;</i></p>	<p>(7a)The programme should contribute to the completion of the TEN-T core network in all modes of transport, including roads in Member States still facing important investment needs for the completion of their core road network.</p>	
27.		AM 8		
28.	(8) In order to achieve the	(8) In order to achieve the	(8) In order to achieve the	

	objectives laid down in the TEN-T guidelines, it is necessary to support with priority the cross-border links and the missing links and to ensure, where applicable, that the supported actions are consistent with the corridor work plans established pursuant to Article 47 of Regulation (EU) No 1315/2013 and to the overall network development regarding performance and interoperability.	objectives laid down in the TEN-T guidelines, it is necessary to support with priority the ongoing TEN-T projects as well as cross-border links [...], bottlenecks, horizontal priorities , missing links and urban nodes and to ensure, where applicable, that the supported actions are consistent with the corridor work plans established pursuant to Article 47 of Regulation (EU) No 1315/2013 and to the overall network development regarding performance and interoperability.	objectives laid down in the TEN-T guidelines, it is necessary to support with priority the cross-border links and the missing links and to ensure, where applicable, that the supported actions are consistent with the corridor work plans established pursuant to Article 47 of Regulation (EU) No 1315/2013 and to the overall network development regarding performance and interoperability.	
29.			(8a)In particular, the full deployment of ERTMS on the core network by 2030 as foreseen by Regulation (EU) No 1315/2013 requires to scale-up support at European level and to incentivize the participation of private investors.	
30.			(8b)An important precondition for successful completion of the core TEN-T network and ensuring effective intermodality is also connection of airports to the TEN-T network. It is, therefore necessary to give priority to the connection of airports with the core TEN-T network, where these are missing.	
31.			(8c)For the implementation of cross-border actions a high degree	

			of integration in the planning and implementation is needed. Without prioritising any of the following examples, this integration could be demonstrated through the establishment of a single project company, a joint governance structure, a bilateral legal framework, an implementing act pursuant to Article 47 of Regulation (EU) No 1315/2013, or any other form of cooperation.	
--	--	--	--	--

32.		AM 9		
33.		<i>(8a) In some cases projects realised on the territory of one Member State have a substantial cross-border impact and create value which exceeds national borders, by enhancing cross-border connectivity on the seaside, or by enhancing the connectivity with the wider hinterland economy beyond national borders. Projects demonstrating such impact should therefore be considered to be cross-border.</i>		
34.		AM 10		
35.		<i>(8b) In order to take account of the exceptional circumstances of the United Kingdom's withdrawal from the European Union, connectivity between Ireland and continental Europe should be provided for by modifying the route and composition of the TEN-T corridors with a view to incorporating the maritime links between Irish ports and the continental ports in the core network and comprehensive network.</i>		

36.		AM 11		
37.	(9) In order to reflect growing transport flows and the evolution of the network, the alignment of the core network corridors <i>and</i> their pre-identified sections should be adapted. These adaptations should be proportionate in order to preserve the consistency and the efficiency of the corridor development and coordination. For that reason the length of the core network corridors should not increase by more than 15%.	(9) In order to reflect growing transport flows and the evolution of the network, the alignment of the core network corridors [...], their pre-identified sections <i>and their capacity</i> should be adapted. These adaptations <i>to the core network should not affect its completion by 2030, should improve the corridors' coverage of the EU territory and</i> should be proportionate in order to preserve the consistency and the efficiency of the corridor development and coordination. For that reason the length of the core network corridors should not increase by more than 15%. <i>Evolutions on the comprehensive network must be monitored and assessed in order to guarantee the relevance of the sections.</i>	(9) In order to reflect growing transport flows and the evolution of the network, the alignment of the core network corridors and their pre-identified sections should be adapted. These adaptations should be proportionate in order to preserve the consistency and the efficiency of the corridor development and coordination. For that reason the length of the core network corridors should not increase by more than 15%. In due course, the alignment of the core network corridors should take into account the results of the review of the implementation of the core network as foreseen in Article 54 of Regulation (EU) No 1315/2013.	
38.		AM 12		
39.	(10) It is necessary to promote investments in favour of smart, sustainable, inclusive, safe and secure mobility throughout the Union. It is nevertheless clear that network deployments will remain commercially non-viable in many areas throughout the Union, due to various factors such as remoteness and territorial or geographical specificities, low population density, various socio-economic factors <i>and as such urgently require closer attention.</i> The Programme should therefore be adjusted to contribute to the achievement of these strategic objectives set out in the Gigabit Society Strategy <i>aiming also to contribute to a balance between rural and urban developments,</i> and,</p>
