	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
1.	2017/114 (COD) Proposal for a Directive of the European Parliament and of the Council amending Directive 1999/62/EC on the charging of heavy goods vehicles for the use of certain infrastructures		2017/114 (COD) Proposal for a Directive of the European Parliament and of the Council amending Directive 1999/62/EC on the charging of heavy goods vehicles for the use of certain infrastructures, <u>Directive 1999/37/EC on the registration documents for vehicles and Directive (EU) 2019/520 on the interoperability of electronic road toll systems and facilitating cross-border exchange of information on the failure to pay road fees in the Union</u>	B
2.	THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,			
3.	Having regard to the Treaty on the Functioning of the European Union, and in particular Article 91(1) thereof, Having regard to the proposal from the European Commission, After transmission of the draft legislative act to the national parliaments, Having regard to the opinion of the European Economic and Social Committee ¹ , Having regard to the opinion of the Committee of the Regions ² , Acting in accordance with the ordinary legislative procedure,			

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
	Whereas: ----- ¹ OJ C [...], [...], p. [...]. ² OJ C [...], [...], p. [...].			
4.	<p>(1) Progress towards the goal, which the Commission set out in its White Paper of 28 March 2011³, namely to move towards the full application of the 'polluter pays' and 'user pays' principles, to generate revenue and ensure financing for future transport investments has been slow and inconsistencies persist in the application of road infrastructure charging across the Union.</p> <p>-----</p> ³ White Paper of 28 March 2011 'Roadmap to a Single European Transport Area – Towards a competitive and resource efficient transport system' (COM(2011) 144 final).		<p>(1) Progress towards the goal, which the Commission set out in its White Paper of 28 March 2011³, namely to move towards the full application of the 'polluter pays' and 'user pays' principles, to generate revenue and ensure financing for future transport investments has been slow and inconsistencies persist in the application of road infrastructure charging across the Union.</p> <p>-----</p> ³ White Paper of 28 March 2011 'Roadmap to a Single European Transport Area – Towards a competitive and resource efficient transport system' (COM(2011) 144 final).	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
5.		Amendment 1 Recital 1a (new)		
6.		<i>(1a) In that White Paper, the Commission set a deadline for 2020 to "proceed to the full and mandatory internalisation of external costs (including noise, local pollution and congestion on top of the mandatory recovery of wear and tear costs) for road and rail transport".</i>		
7.		Amendment 2 Recital 1b (new)		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
8.		<i>(1b) The movement of goods and passenger vehicles is a factor that contributes to the release of pollutants into the atmosphere. Such pollutants, which have a very serious impact on people's health and lead to the deterioration of ambient air quality in the Union, include PM2,5, NO₂, and O₃. In 2014, those three pollutants caused 399 000, 75 000, and 13 600 premature deaths in the Union owing to prolonged exposure, respectively, according to European Environment Agency estimates produced in 2017.</i>		
9.		Amendment 3 Recital 1c (new)		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
10.		<i>(1c) According to the World Health Organization, noise from road traffic alone ranks second among the most harmful environmental stressors in Europe, exceeded only by air pollution. At least 9 000 premature deaths a year can be attributed to heart disease caused by traffic noise.</i>		
11.		Amendment 4 Recital 1d (new)		
12.		<i>(1d) According to the European Environment Agency's 2017 report on air quality in Europe, road transport, in 2015, was the sector with the highest NOx emissions and the second largest emitter of black carbon pollution.</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
13.	<p>(2) In its Communication on a European Strategy for Low-Emission Mobility⁴, the Commission announced that it would propose the revision of the Directive on the charging for lorries to enable charging also on the basis of carbon dioxide differentiation, and the extension of some of its principles to buses and coaches as well as passenger cars and vans.</p> <p>----- ⁴ COM(2016) 501 final.</p>		<p>(2) In its Communication on a European Strategy for Low-Emission Mobility⁴, the Commission announced that it would propose the revision of the Directive on the charging for lorries⁵ to enable charging also on the basis of carbon dioxide differentiation, and the extension of some of its principles to buses and coaches as well as passenger cars and vans.</p> <p>----- ⁴ COM(2016) 501 final. ⁵ <u>Directive 1999/62/EC of the European Parliament and of the Council of 17 June 1999 on the charging of heavy goods vehicles for the use of certain infrastructures (OJ L 187, 20.7.1999, p. 42).</u></p>	
14.		Amendment 5 Recital 3		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
15.	(3) All heavy duty vehicles have significant impact on road infrastructure and contribute to air pollution, while light duty vehicles are at the source of the majority of the negative environmental and social impacts from road transport related to emissions and congestion. In the interest of equal treatment and fair competition, it should be ensured that vehicles so far not covered by the framework set out in Directive 1999/62/EC of the European Parliament and of the Council ⁵ in respect of tolls and user charges are included into this framework. The scope of that Directive should therefore be extended to heavy duty vehicles other than those intended for the carriage of goods and to light duty vehicles, including passenger cars.	(3) All heavy duty vehicles have significant impact on road infrastructure and contribute to air pollution, and light duty vehicles are at the source of the majority of the negative environmental and social impacts from road transport related to emissions and congestion. In the interest of equal treatment and fair competition, it should be ensured that vehicles so far not covered by the framework set out in Directive 1999/62/EC of the European Parliament and of the Council ¹ in respect of tolls and user charges are included into this framework. The scope of that Directive should therefore be extended to heavy duty vehicles other than those intended for the carriage of goods and to light duty vehicles, including and passenger cars.	(3) [...] <u>Taking into account the vehicle fleet renewal time and the need for the road transport sector to contribute to the Union climate and energy targets for 2030 and beyond, CO₂ emission reduction targets for new heavy-duty vehicles have been set for 2025 and 2030 at 15% and respectively 30% lower than an established average of CO₂ emissions⁶.</u> <u>(6) Regulation (EU) 2019 /1242 of the European Parliament and of the Council of 20 June 2019 setting CO₂ emission performance standards for new heavy-duty vehicles.</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
	<p>----- ⁵ Directive 1999/62/EC of the European Parliament and of the Council of 17 June 1999 on the charging of heavy goods vehicles for the use of certain infrastructures (OJ L 187, 20.7.1999, p. 42).</p>	<p><i>Charges for passenger cars could be adjusted so as to avoid excessive penalisation of frequent users. In the interest of equal treatment, charges should also be applied in a non-discriminatory manner, on the basis of category of vehicle, and differently, depending on vehicle impact on infrastructures and on the environment and society, and on the socioeconomic circumstances of certain users with no other choice but to go by road to their place of employment.</i></p> <p>----- ⁴ Directive 1999/62/EC of the European Parliament and of the Council of 17 June 1999 on the charging of heavy goods vehicles for the use of certain infrastructures (OJ L 187, 20.7.1999, p. 42).</p>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
16.		Amendment 6 Recital 3a (new)		
17.		<i>(3a) To establish an internal market in road transport with a level playing field, rules should be applied uniformly. One of the main aims of this Directive is to eliminate distortions of competition between users. Accordingly, vans carrying goods by road ought to be included in the scope of charges applied to heavy duty vehicles.</i>		
18.		Amendment 7 Recital 3b (new)		
19.		<i>(3b) In order to guarantee that such a measure is proportionate, it is important to target only vans used to carry goods by road that are regulated by Regulations (EU) No 1071/2009^{1a} and 1072/2009^{1b} of the European Parliament and of the Council and by Regulation (EU) No</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		<p>165/2014 of the European Parliament and of the Council^{1c} -----</p> <p>^{1a} Regulation (EC) No 1071/2009 of the European Parliament and of the Council of 21 October 2009 establishing common rules concerning the conditions to be complied with to pursue the occupation of road transport operator and repealing Council Directive 96/26/EC (OJ L 300, 14.11.2009, p. 51).</p> <p>^{1b} Regulation (EC) No 1072/2009 of the European Parliament and of the Council of 21 October 2009 on common rules for access to the international road haulage market (OJ L 300, 14.11.2009, p. 72).</p> <p>^{1c} Regulation (EU) No 165/2014 of the European Parliament and of the Council of 4 February 2014 on tachographs in road transport,</p>

		<i>repealing Council Regulation (EEC) No 3821/85 on recording equipment in road transport and amending Regulation (EC) No 561/2006 of the European Parliament and of the Council on the harmonisation of certain social legislation relating to road transport (OJ L 60, 28.2.2014, p. 1).</i>		
20.		Amendment 8 Recital 4		
21.	(4) Time-based user charges do by nature not accurately reflect infrastructure costs actually induced and, for similar reasons, are not effective when it comes to incentivising cleaner and more efficient operations, or reducing congestion. They should therefore be gradually replaced by distance-based charges, which are fairer, more efficient and more effective.	(4) Time-based user charges do by nature not accurately reflect infrastructure costs actually induced and, for similar reasons, are not effective when it comes to incentivising cleaner and more efficient operations, or reducing congestion. They <i>For heavy vehicles</i> , time-based user charges should therefore be gradually replaced by distance-based charges, which are fairer, more efficient and	(4) [...] <u>Notwithstanding the importance of the road transport sector, all heavy duty vehicles have significant impact on road infrastructure and contribute to air pollution. In spite of their economic and social importance, light duty vehicles are at the source of the majority of the negative environmental and social impacts from road transport related to emissions and</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		more effective.	<u>congestion. In the interest of equal treatment and fair competition, it should be ensured that vehicles so far not covered by the framework set out in Directive 1999/62/EC of the European Parliament and of the Council, in respect of tolls and user charges, are included into this framework. The scope of that Directive should therefore be extended to heavy duty vehicles other than those intended for the carriage of goods and to light duty vehicles, including passenger cars.</u>	
22.		Amendment 10 Recital 4a (new)		
23.		<i>(4a) In order to ensure that this gradual replacement of time-based charges with distance-based charges does not become a further obstacle to access to the main European markets for transport from</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		<i>peripheral countries and regions, a compensation system should be put in place as soon as possible in order to counterbalance the added costs and thereby ensure that it does not represent a significant loss of competitiveness.</i>		
24.		Amendment 11 Recital 4b (new)		
25.		(4b) <i>In order to prevent traffic from switching to toll-free roads, which may have a serious impact on road safety and the optimum use of the road network, Member States must be able to levy tolls on all roads which are in direct competition with the trans-European networks.</i>		
26.		Amendment 12 Recital 4c (new)		
27.		(4c) <i>Time-based user charges encourage drivers to travel more when their vignette</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		<i>is valid, thus making them misapply the ‘polluter pays’ principle and the ‘user pays’ principle.</i>		
28.		Amendment 13 Recital 4d (new)		
29.		<i>(4d) To ensure that this Directive is properly applied, the contractual frameworks governing concession contracts for road charge collection should make it easier, with due regard for Directive 2014/23/EU of the European Parliament and of the Council, to bring those contracts into line with changes in the Union’s regulatory framework.</i>		
30.		Amendment 14 Recital 4e (new)		
31.		<i>(4e) In this connection, consideration should be given to the possibility of offsetting the added costs arising from remoteness by means of</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		<i>facilities as regards access to more energy-efficient fleets and the priority provision of exclusive infrastructure or technologies such as e-highways. Those compensating facilities could form part of the future CEF post-2020.</i>		
32.		Amendment 15 Recital 5		
33.	(5) In order to secure user acceptance of future road charging schemes, Member States should be allowed to introduce adequate systems for the collection of charges as part of a wider package of mobility services. Such systems should ensure a fair distribution of infrastructure costs and reflect the 'polluter pays' principle. Any Member States introducing such a system should ensure that it complies with the provisions of Directive	(5) In order to secure user acceptance of future road charging schemes, Member States should be allowed to introduce adequate systems for the collection of charges as part of a wider package of mobility services. Such systems should ensure a fair distribution of infrastructure costs and reflect the 'polluter pays' principle <i>and incorporate arrangements for ring-fencing the receipts from the user charges. In that connection, Member States should also be free to levy tolls</i>	(5) [...] <u>Time-based user charges do, by nature, not accurately reflect the costs actually induced by road use and, for similar reasons, are not effective when it comes to incentivising cleaner and more efficient operations, or reducing congestion. However, in order to secure user acceptance of future road charging schemes, Member States should be allowed to maintain existing time-based charging schemes as well as to introduce new</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
	<p>2004/52/EC of the European Parliament and of the Council.⁶</p> <p>-----</p> <p>⁶ Directive 2004/52/EC of the European Parliament and of the Council of 29 April 2004 on the interoperability of electronic road toll systems in the Community (Text with EEA relevance), OJ L 166, 30.4.2004, p. 124–143.</p>	<p><i>on roads which do not form part of the main transport network.</i> Any Member States introducing such a system should ensure that it complies with the provisions of Directive 2004/52/EC of the European Parliament and of the Council.⁶</p> <p>-----</p> <p>⁶ Directive 2004/52/EC of the European Parliament and of the Council of 29 April 2004 on the interoperability of electronic road toll systems in the Community (Text with EEA relevance), OJ L 166, 30.4.2004, p. 124–143.</p>	<p><u>ones and to provide for adequate systems for the collection of charges as part of a wider package of mobility services. Such systems should ensure a fair distribution of infrastructure costs and reflect the 'polluter pays' principle. Any Member States introducing such a system should ensure that it complies with the provisions of Directive 2019/520/EC of the European Parliament and of the Council⁷.</u></p> <p><u>(⁷) Directive 2004/52/EC of the European Parliament and of the Council of 29 April 2004 on the interoperability of electronic road toll systems in the Community (Text with EEA relevance), OJ L 166, 30.4.2004, p. 124–143</u></p>	
34.			<p><u>When applying road user charges to all heavy goods vehicles the latest after eight years after entry into force of</u></p>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<u>the directive, Member States should remain flexible as regards levying tolls or user charges to the newly included segment of heavy goods vehicles.</u>	
35.			<u>(5a) When strengthening the user and polluter pays principles, certain characteristics of the Member States or their tolling and user charge systems should be taken into consideration. For example, with a view to particularly sparsely populated areas or a particularly large network of tolled or charged roads, the option of providing for exemptions of road sections should be available</u>	
36.			<u>(5b) Some Member States have large toll networks that include many more motorways and roads than just the ones which are part of the TEN-T network. Applying tolls or user charges to all heavy goods</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<p><u>vehicles would therefore result in significantly more extensive burdens, especially for small and medium-sized craft businesses (which typically do not commission transport services but rather construction work). Those burdens would in turn lead to higher prices for example in the area of construction. Price increases mean that future investments in particular, such as the energetic renovation of houses and apartments as well as the modernization of house technology, could be postponed or even be cancelled. Also, craft businesses sometimes cover longer distances which cannot easily be replaced through other modes of transport. In addition, companies from rural regions, which are dependent on the provision of their services and construction</u></p>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<p><u>activities in metropolitan areas due to the reduced population density and demand there, find themselves in a disadvantageous competitive situation compared to companies operating in large cities or on the outskirts of metropolitan areas. Therefore, Member States should be given the option to provide for certain charging exemptions, such as that on vehicles used for carrying materials, equipment or machinery for the driver's use in the course of the driver's work or used for the delivery of goods produced on a craft basis.</u></p>	
37.			<p><u>(5c) The possibility to use roads subject to road charging, e.g. motorways, tunnels or bridges, instead of challenging local roads can be important for persons with disabilities. In order to allow persons with disabilities the use of roads</u></p>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<u>subject to road charging without further administrative burden, Member States should be allowed to exempt vehicles of persons with disabilities from the obligation to pay a toll or user charge.</u>	
38.		Amendment 16 Recital 5 a (new)		
39.		<i>(5a) Member States should be encouraged to take into account socioeconomic factors when applying road infrastructure charging schemes for passenger cars.</i>		
40.		Amendment 17 Recital 5b (new)		
41.		<i>(5b) The levying of charges on all road users by electronic means involves the mass collection and storage of personal data, which can also be used to draw up comprehensive movement profiles. The Member States</i>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
		<p><i>and the Commission should systematically take account of the principles of purpose limitation and data minimisation when implementing this Directive. Technical solutions for the collection of data in connection with the levying of road-use charges should therefore incorporate anonymised, encrypted or advance payment options</i></p>		
42.		<p>Amendment 18 Recital 5c (new)</p>		
43.		<p><i>(5c) Vehicle taxes might act as an obstacle to the introduction of tolls. To provide backing for the introduction of tolls, Member States should have greater leeway to lower vehicle taxes quickly, meaning a reduction, as soon as possible, of the minimum rates set out in Directive 1999/62/EC.</i></p>		

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
44.		Amendment 20 Recital 5d (new)		
45.		<i>(5d) It is of particular importance that the Member States establish a fair charging system which does not penalise users of private vehicles which, due to their place of residence in the countryside or in areas that are difficult of access or isolated, are forced to make more regular use of roads subject to charging. Under territorial development policy, Member States should levy reduced charges on users from such areas.</i>		
46.		Amendment 21 Recital 6		
47.	(6) As in respect of heavy duty vehicles, it is important to ensure that any time-based charges applied to light duty vehicles are proportionate, including in respect of periods	(6) As in respect of heavy duty vehicles, it is important to ensure that, if Member States introduce any time-based charges applied to light duty vehicles, they are	(6) As in respect of heavy duty vehicles, it is important to ensure that any time-based charges applied to light duty vehicles are proportionate, including in respect of periods

			<u>involved in the cooperation among Member States intending to introduce common road charging schemes.</u>	
96.			<u>(26) Since the objective of this Directive, namely to ensure that national charges of vehicles for the use of certain infrastructure are applied within a coherent framework that secures equal treatment across the Union, cannot be sufficiently achieved at Member State level but can rather, by reason of the cross-border nature of road transport and of the problems this Directive is intended to address, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the Treaty on European Union. In accordance with the principle of proportionality, as set out in that Article, this</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<u>Directive does not go beyond what is necessary to achieve that objective.</u>	
97.			<u>(27) It is necessary to ensure that external-cost charges continue to reflect the cost of air pollution, noise and climate change generated by heavy duty vehicles as accurately as possible without rendering the charging scheme excessively complex, to incentivise the use of the most fuel-efficient vehicles, and to keep the incentives effective and the differentiation of road charges up-to-date.</u>	
98.			<u>(28) Therefore, the power to adopt acts in accordance with Article 290 of the Treaty on the Functioning of the European Union should be delegated to the Commission for the purpose of adapting the reference values for external cost charging to scientific progress. It is of particular</u>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
			<p><u>importance that the Commission carry out appropriate consultations during its preparatory work, including at expert level, and that those consultations be conducted in accordance with the principles laid down in the Interinstitutional Agreement on Better Law-Making of 13 April 2016¹⁰. In particular, to ensure equal participation in the preparation of delegated acts, the European Parliament and the Council receive all documents at the same time as Member States' experts, and their experts systematically have access to meetings of Commission expert groups dealing with the preparation of delegated acts.</u></p> <hr/> <p>⁽¹⁰⁾ OJ L 123, 12.5.2016, p. <u>1.</u></p>	

	Commission proposal, COM(2017) 275 final	European Parliament, P8_TA(2018)0423	Text endorsed in COREPER, doc. ST 13827/20	Presidency compromise proposal / remarks
99.			<u>(29) The Commission should adopt implementing acts to specify the reference CO₂ emissions for the sub-groups of heavy duty vehicles not covered by Article 2(1) points (a) to (d) of Regulation (EU) 2019/1242. The Commission should reproduce the data relevant for such vehicle groups published in the report referred to in Article 10 of Regulation (EU) 2018/956. In light of the limited nature of the implementing powers conferred on the Commission, it is not necessary to provide for control by a committee composed of Member State representatives prior to their adoption.</u>	
100.	(23) Directive 1999/62/EC should therefore be amended accordingly,	.	<u>(30) Directive 1999/62/EC should therefore be amended accordingly,</u>	
101.	HAVE ADOPTED THIS DIRECTIVE:
