If/when a CISE participant detects the vessel from your VOI list, you will be informed

USE CASE I CONCLUSIONS

CISE enables the gathering of **additional information** from different sources **beyond** a particular **authority's sectors and borders**, *including intelligence*.

This complementary information helps authorities :

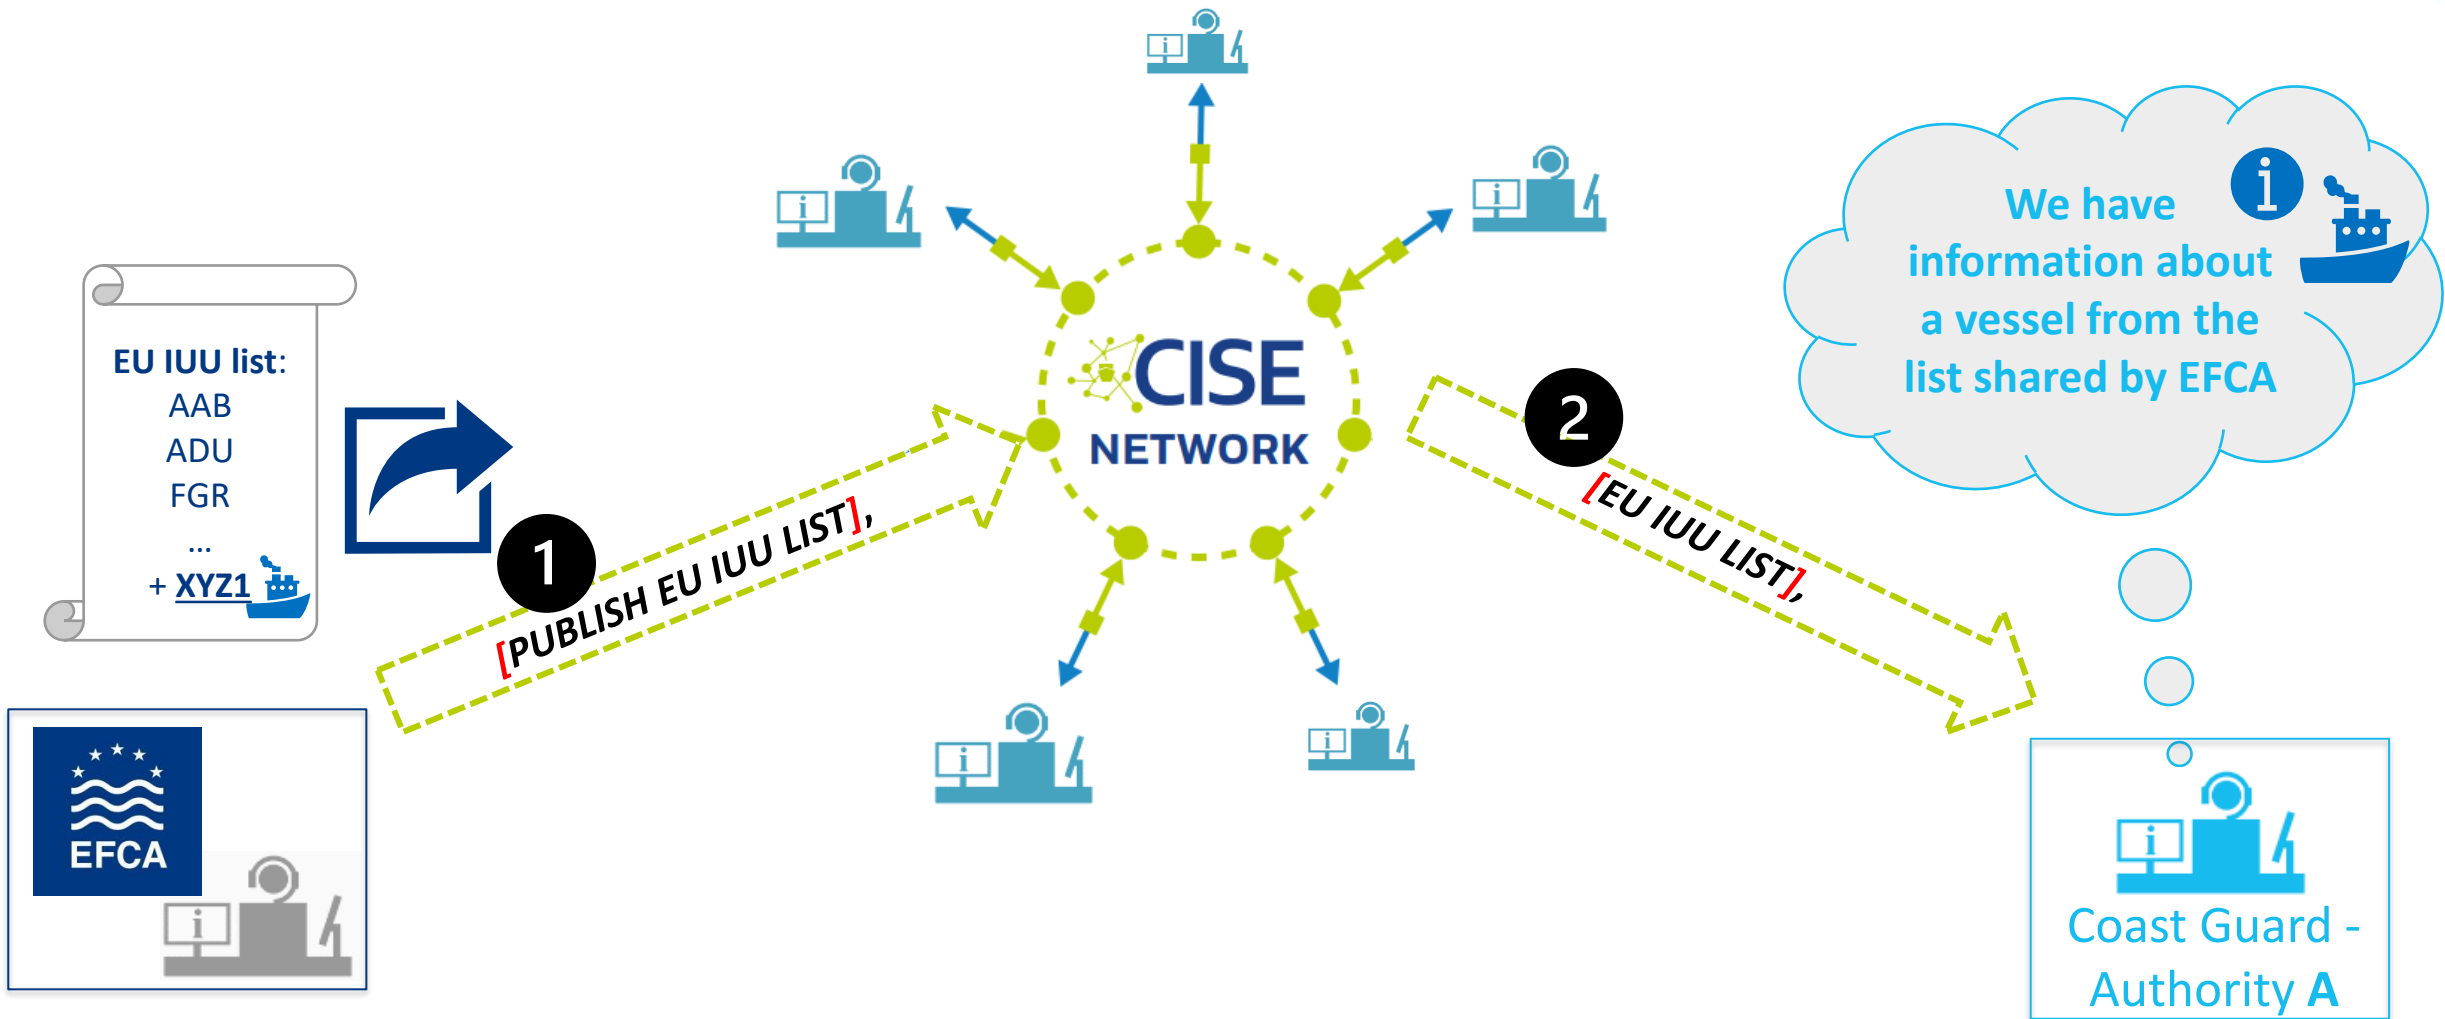

- To obtain a **more complete maritime picture**,
- **to plan** well in advance,
- and to undertake **necessary actions in a timely and efficient manner**.

**Mr Rafael
Duarte**

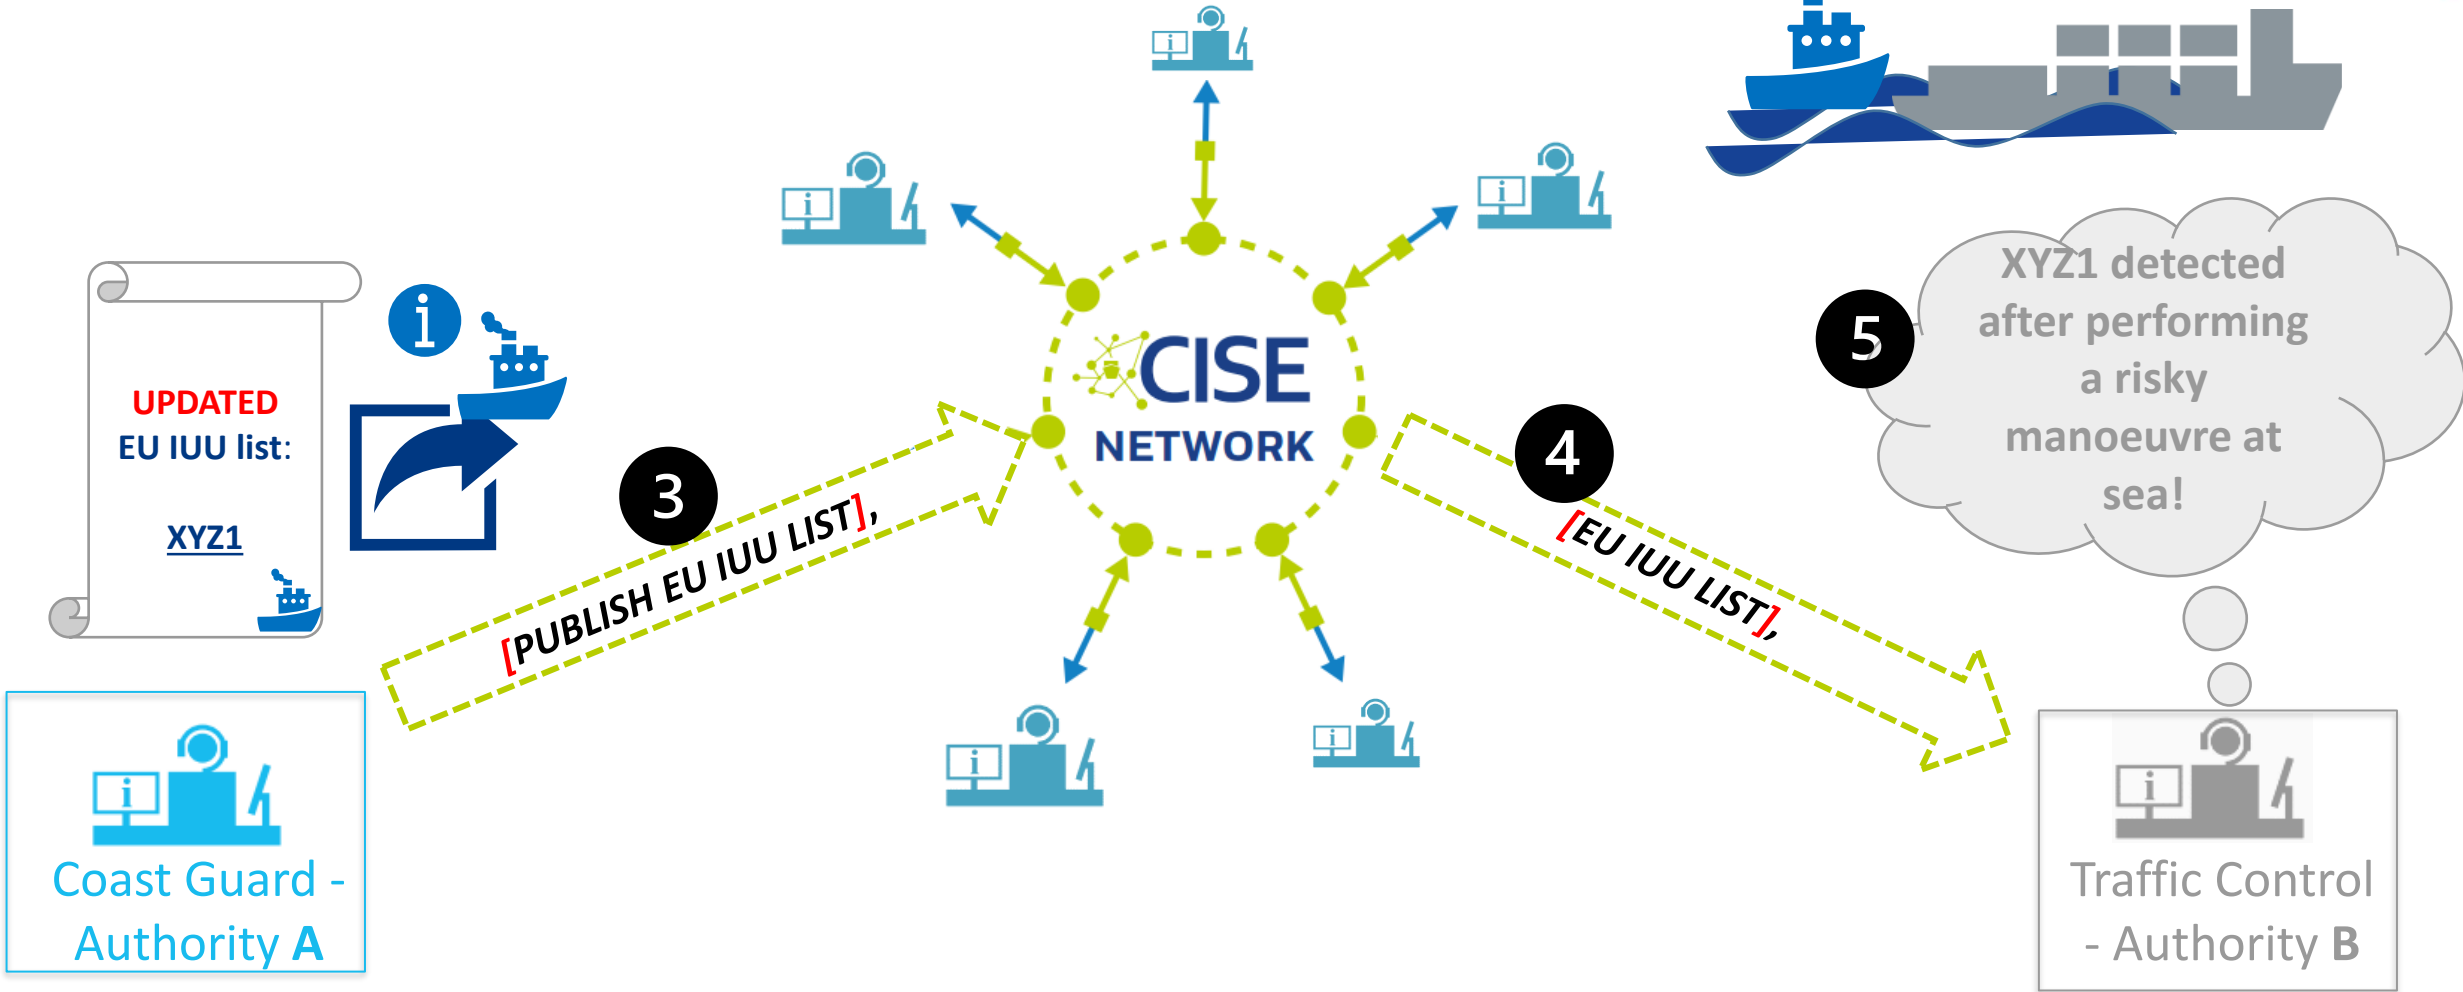

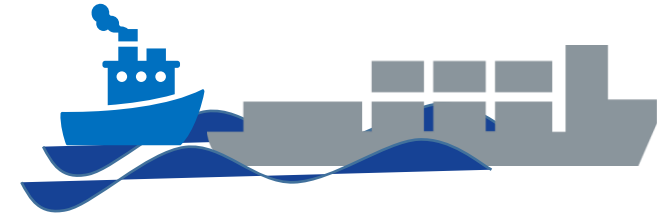

European
Fisheries
Control
Agency

USE CASE II
**Vessels of Interest (VOI) list
on the EU IUU list**

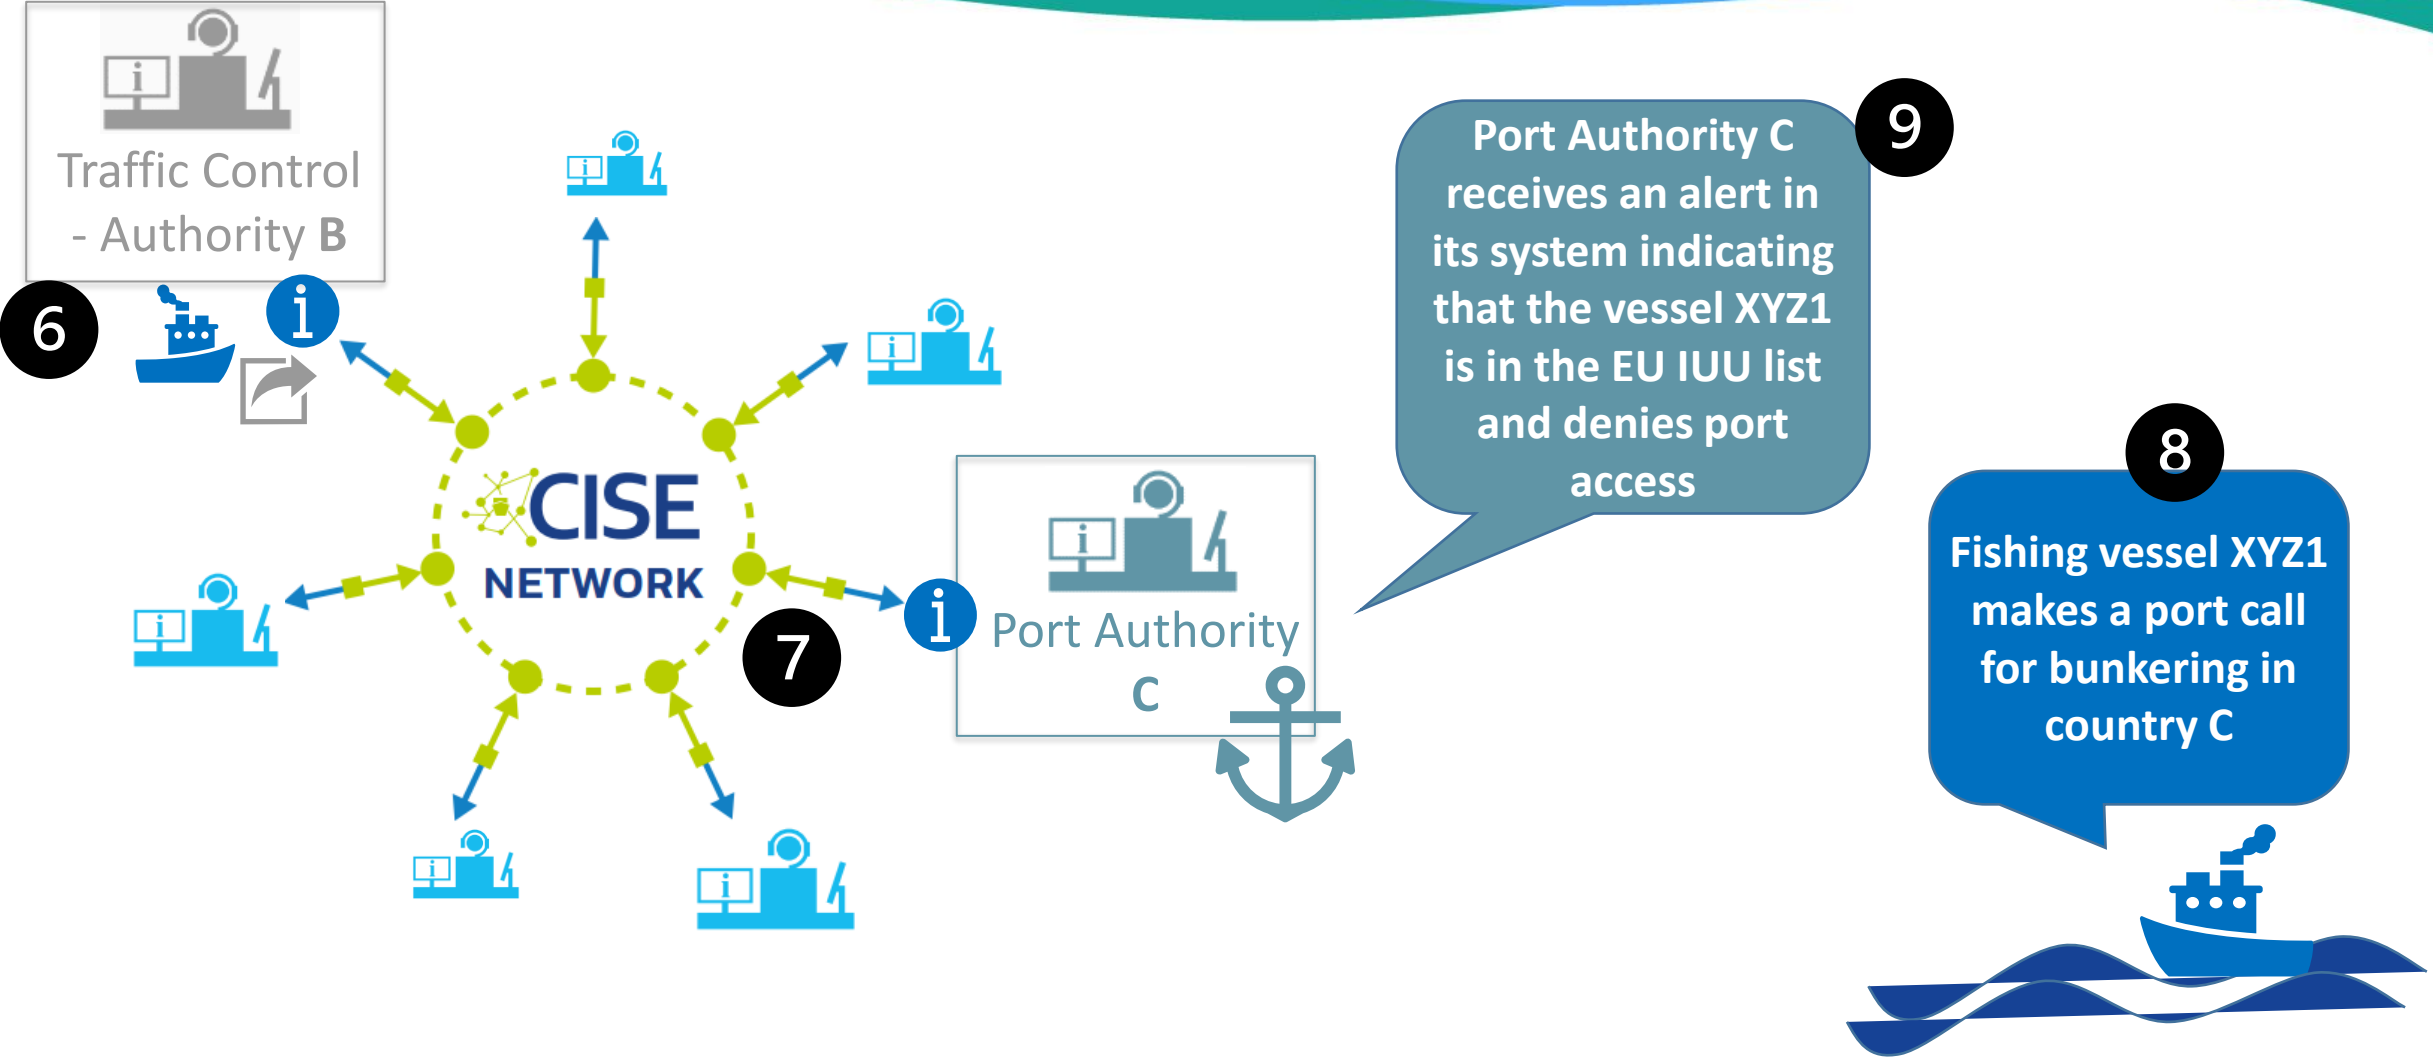

EFCA shares the EU IUU vessel list through CISE using the VOI list service

Coast Guard (Authority A) updates the information of the VOI and disseminates to all authorities through CISE

The Traffic Control (Authority B) shares its findings through CISE

USE CASE II

CONCLUSIONS

The presented scenario and steps show how CISE can:

- support a **better dissemination of the EU IUU vessel list**, and
- in particular support the dissemination of **information gathered from different authorities**
