Betreff: AW: Final HoT - please confirm - asap

Dear Dr. Steinberg

Thank you for sending over the most recent version of the termsheet. After careful analysis together with the Board of Management just a few minutes ago we can confirm that the Uniper Board of Management is agreeing to the terms and conditions set out in the a.m. termsheet. The Board of Management will now send out the termsheet to the Uniper Supervisory Board for final approval which is expected this evening.

We would like to emphasize again our disappointment that the clarifying clause regarding the withdrawal of the ECT claim via the shareholders meeting has not been accepted by the other parties to this agreement. Uniper deems this to be a very reasonable ask that is in the hands of Fortum and the German government.

Kind regards
